

THE CASE FOR A
CREATOR

QUESTIONS THAT COULD BE ASKED

- ❖ Evolution/big bang theory
- ❖ What proof is there?
- ❖ A creator's creator?
- ❖ Science against faith?

4 VISUAL IMAGES OF EVOLUTION

- ❖ Evolution is based on 4 visual images
 - Stanley Miller- amino acid experiment
 - Charles Darwin's origin of the species (featured in bio textbooks)
 - Ernst Haeckel's drawings of embryos
 - the archaeopteryx, the famous fossil from a bird- lizard-like creature dating back 150 million years. Scientists hailed it as the missing link between modern birds and reptiles.

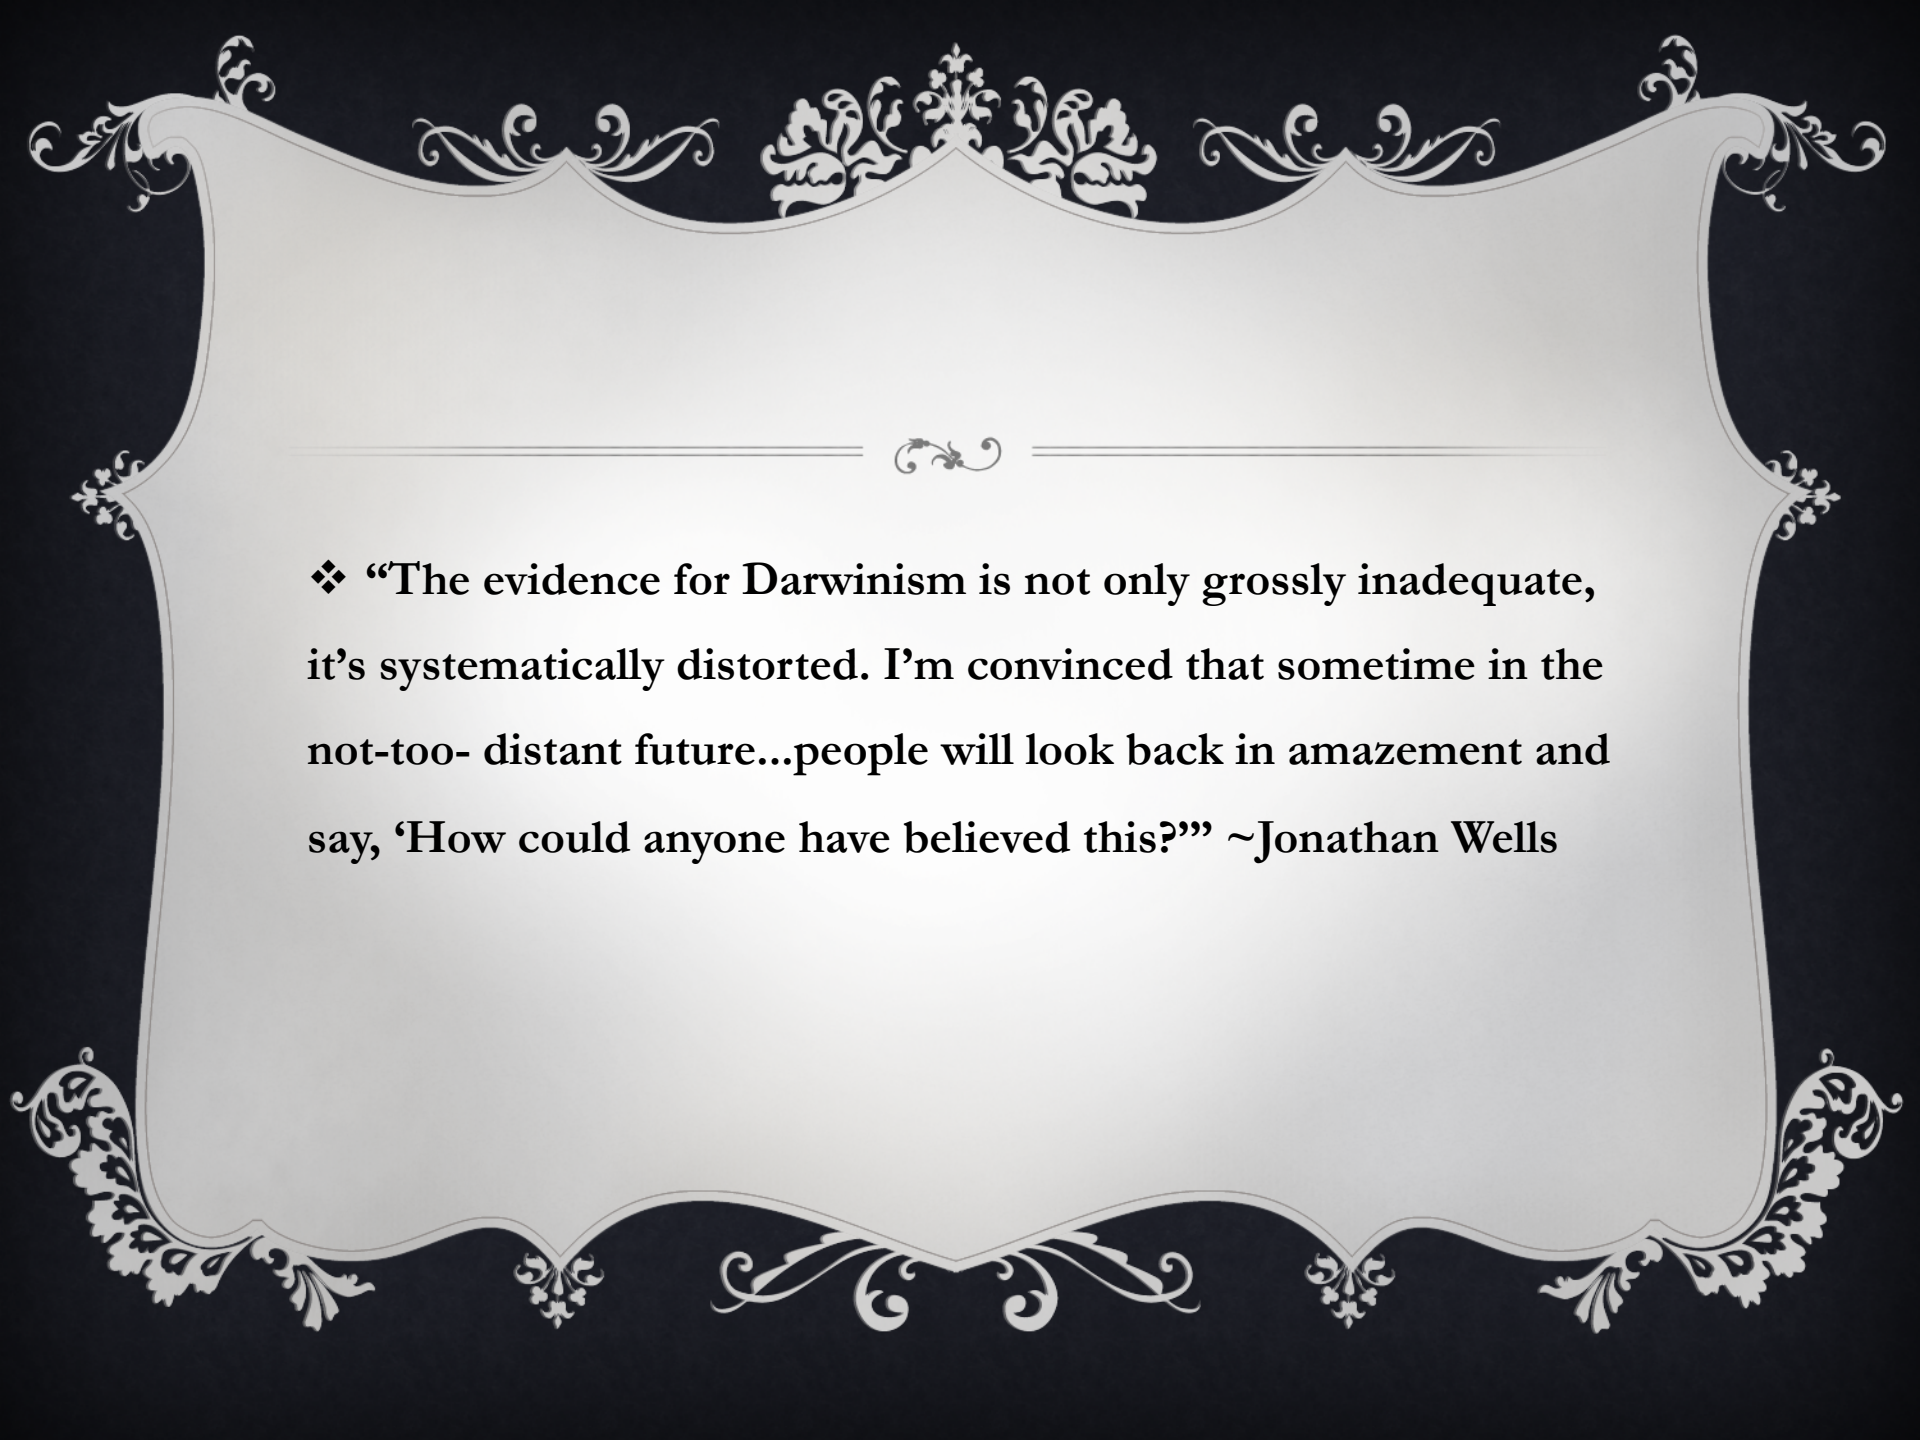

STANLEY MILLER

- ❖ His experiment was FALSE
- ❖ Why? Because he never used elements that existed in the early earth's atmosphere.
- ❖ If you do the experiment now you get cyanide not amino acids!!!!
- ❖ So producing amino acids is false

DARWIN'S TREE OF LIFE

- ❖ Most known- atheists use it a lot to discredit our beliefs. (Note a lot of Christians are now agreeing with the theory of evolution.)
- ❖ It is discredited as a theory now why?
 - Fossils don't support theory
 - Phyla suddenly appeared on the tree
 - After the Cambrian explosion more than 540 million years ago, fully developed animals appeared with no semblance of evolutionary processes

❖ “The evidence for Darwinism is not only grossly inadequate, it’s systematically distorted. I’m convinced that sometime in the not-too- distant future...people will look back in amazement and say, ‘How could anyone have believed this?’” ~Jonathan Wells

?

HAECKEL'S EMBRYOS?

- ❖ Haeckel basically photo shopped!!!!
- ❖ We can't all have the same ancestry, imagine scales or gills!!!!
- ❖ He chose only the embryos that had similarities, purpose- fully omitting those not supporting his theory.

DARWINISM

- ❖ Not compatible together
- ❖ Science evolves and so technology but not religion.
- ❖ You literally obliterate Jesus and God.
