Moral Law

What?

Seriously, 😊 !!

Yes, So Serious, 😞!!

So What, 😊

What?

- The natural law of our conscience
- The law that governs all our action, that makes us human

What do we think this law is?

What??

- Hang on, isn't this natural law our instincts??

Not really, instincts is like fight when in danger

- OK, isn't it the social, law

Come on, this social law changes from one society to another, so variable.

What??

So What is it?

It is the law that governs our instincts when to use it and when not to use it and it is not the social law

What?????

The reality is that this law is very powerful to manifest in our lives always, no matter what.

It is like, it has a mind?

Seriously, 😊

Isn't this just a set of laws

**Why does it prove there is a
mind behind this law.**

Seriously, 😊

**Why cannot our nature just be the
origin of this law?**

Come, do you mean our matter?

So, Serious 😞

This law is a prescription, do this, do that, come on!! Someone must have prescribed it with such accuracy.

Oh and all the religions and wisdom books seems to arrive into the same set

So, Serious 😞

Why so serious?

**This mind that has set our laws
for us, we keep failing those
laws**

So, What 😊

Well, you tell me!!

**If we are failing our law of
nature, how can we succeed if
we want to**

**You cannot succeed, let us that
straight, because, you are not
perfect**

**Only, the one that sets the law has
the power to succeed them**

Think about it?
